## TAELLN411 Address adult language, literacy and numeracy skills

### Course Outline

There has been growing awareness that people need to develop their Language, Literacy and Numeracy skills not just at school but across their whole life. Everyone uses LLN skills every day for a variety of purposes – personal, social and work. Different tasks and contexts need different types of reading, writing, listening, speaking and numeracy skills, so people need to continually develop and adapt these skills to suit new situations. There have been significant changes within the TAE package to provide trainers with relevant knowledge and skills required to address the learners LLN skills within the VET experience. From July 2014, the unit TAELLN411 Address adult language, literacy and numeracy skills became a core unit in the TAE40110 Certificate IV in Training and Assessment qualification (now TAE40116) and will be a minimum requirement for all trainers by the 1st April 2019.

This unit describes how to recognise the core language, literacy and numeracy (LLN) demands of training and assessment, and how to tailor training and assessment to suit individual skill levels, including accessing relevant support resources.

TAELLN411 Address adult language, literacy and numeracy skills does not have recurrent training requirements.

### Course Subjects

- Why LLN for VET practitioners
- Australian Core Skills Framework (ACSF)
- LLN in Training packages
- Validated LLN assessment tools
- Specialist LLN programs and services
- LLN in learning resources & support strategies

Competency in this unit does not indicate specialist LLN practitioner skills. In simple terms, the unit is about being aware of the balance between the LLN demands of the training environment, the LLN requirements of the training program and the LLN skills of the learner.
